FLUXLABS

WALL POSTER · HOLIDAY SEASON

Holiday scams are here.

Scammers get busy when we do. Watch for these from November to January.

1. **"Your package is on hold."**
   Fake delivery texts asking for a small fee or your address. Check in the shipper's own app.

2. **The boss needs gift cards.**
   An email or text "from the owner" asking you to buy cards for clients. Call them to check.

3. **"There's a problem with your order."**
   Fake store emails about a refund or locked account. Go to the store's site yourself.

4. **Deals that are too good.**
   Fake shops and ads with huge discounts. If you've never heard of the store, look it up first.

5. **Party invites and e-cards.**
   Holiday attachments and "see who sent you a card" links can install bad software.

Check it yourself.

Open the store, bank or shipping app directly, never through the link. Not sure? Forward it to **check@scan.fluxlabs.net**.
